“ The charity raffles at Shepparton Club have been a great success. We hold these every month, and it's become a vital part of the way that we develop close ties with our local community and the various charities within it. We love the ease of use, and of course it's great that the guys at Pub & Club Co have waived their fees to help us get as much of those funds back to those groups. I recommend it to any club that is not only seeking to support local groups in need, but also wishing to establish or elevate their status as a true hub of their community.
